From The "E"

Hello Brothers!

My name is Adam McHenry and I am the "E" for Tri-State. In this addition to the Red and Buff I am hoping to give insight into what we as a chapter have been doing in the wake of the 50th alumni weekend and how we are active members in the philanthropy and service scene. We, as a chapter, want to show that we are not easing up on any philanthropy goals.

In this addition I am also hoping to spotlight some positions in our house that don't normally get talked about. This is to show you how we as a whole chapter are stepping up and doing our best to make sure this house stands for another 50 years and more.

I am ecstatic to take on this new view for the Red and Buff and excited for the future of this chapter. If you have suggestions, comments or concerns moving forward with future Red & Buffs, I would love to hear any and all feedback!

ITB,

Adam McHenry #590

50th Alumni Weekend

The 50th Alumni Weekend was a smashing success. Seeing and celebrating with so many brothers will surely be a memory not soon forgotten. With the passing of this weekend many things were accomplished. Along with celebrating our brotherhood managed to contribute almost \$2,000 to the Jimmy V foundation, the house was finally paid off and the mortgage was burned.

Seeing the chapter take this next step in its evolution is something momentous. Starting out with humble beginnings and good intentions the 411 Gang led the charge to the Greek system with Lambda Phi Epsilon to Beta Phi Theta, the era of professional men.

At alumni weekend more than 300 alumni and active brothers were there to celebrate the occasion. Starting off with a successful initiation of 4 Beta Phi Thetas into the Bar of Delta Chi. Progressing through the weekend there was many things to be done. There was the golf scramble at Zolner golf course and the hog roast dinner on Saturday. On the following Sunday Alumni ceremony was held followed by the annual house meeting where Housing Corp voted to purchase the property east of the house. This new property will help Tri-State chapter grow and expand with the ever expanding campus. The house on the new property will be demolished this November and will be used as open space for the brothers.

Following Alumni weekend the house hopes to exceed its philanthropy goal by nearly \$2,000 and will endeavor to keep the house as spotless and as prestigious as ever. This weekend could not have been such a success without the endeavor and perseverance of the 50th committee. To them we are very grateful and will hope to meet and exceed theirs and alumni expectations for years to come.

Thank you to all who came and to all who helped with Alumni weekend. We wouldn't be here without you and we wouldn't be able to survive without your continued support and guidance.

Buying Your Brother a Beer

It was so amazing to me how many Brothers made the effort to return, and a good time had by all. In the last four years we have been able to contribute to D Chi building corp almost \$5600 (ok \$5596) net expenses. These donations help with weekends like the 50th alumni weekend and helping the house to stay competitive in recruiting the best men to join Delta Chi. Hopefully we can continue this program, even though free beer won't be an option, so that we can try to show we can be responsible drinkers of alcohol. We will help on friday night event to purchase more food and snacks and continue to to contribute to make the house even greater. Hopefully many of you will continue your support and also get more contributors to enjoy the upcoming Delta Chi alumni 50+1 on April 3,4,and 5, 2020.

Region V RLC 2019

This past spring, we had the privilege of hosting the Regional Leadership Conference (RLC) for Delta Chi Region V. We hosted delegates from chapters in Wisconsin, Illinois, and Indiana for seminars regarding recruitment, risk management (among other positions) using the beautiful facilities located in Ford hall on campus. On Friday night, we served our home-made wings at an informational session where the Tom "Tomcat" Carrol ("CC") answered questions and talked about the overall state of the fraternity. The Saturday night event was held at the new ice arena where brothers had an option to either skate or participate in a casino night where tickets for a raffle could be won. At the banquet on Saturday, we were given awards for Innovative Programming, and Campus Involvement. The next RLC is in Cincinnati and will be combined with Region VI.

Philanthropy Events Fall '19

This fall the weekend of October 18th our brothers will be traveling to Sandusky Ohio to work at the Cedar Point amusement park in order to raise money for the Jimmy V foundation. We have 16 brothers signed up to go which should raise up around 2,500\$ in total. This will also be a great brotherhood event working the jobs together and staying in the provided Cedar Point housing. This is the first year we will be doing this event and hopefully it is one that we can continue to do for years to come.

This following weekend after Cedar Point our brothers will be traveling down to Arcadia Michigan to do some volunteer work at camp arcadia in helping them close up the camp for the winter. This will also be a great brotherhood experience as we get to work together around the camp and stay in the provided rooms at camp arcadia. We currently have 26 brothers signed up to go volunteer which is by far the most compared to recent years.

We also have some major on campus philanthropy events going on the first week of October. It starts off with puppies, pies, and D Chi's on September 30th, where we will be holding it on the University Center lawn to increase student involvement. The next event that week is the toilet seat toss being held on October 2nd on the grass between academic buildings during classes. The final event that week is our car smash being held on October 3rd during Delta Chi wings. Overall the month of October is a huge month for philanthropy and should bring in a lot of money for the Jimmy V foundation while creating good brotherhood experiences and memories.

Alumni of the Year

Alumni of the year is a title given to those who have given back and served their chapter selflessly and without reservation. The two men selected for this year have done just that and more by helping to plan and organize one of the biggest events the TriState chapter has ever seen. Whether it be by heading committees and task forces or by contributing artistically to help ensure that the 50th was both memorable and invigorating for all present. Together and with the help of many other brothers these two have surpassed all expectations and given this chapter something to cherish and hold on to for the rest of its existence.

Bob Edds

Bob Edds '69 is a Tri-State college graduate and one of the first initiated classes for this chapter. After his time at Tri-State Bob went on to get his MBA from Bowling Green to advance his own managerial skill. Bob currently works for Marathon Oil part time during his retirement. Over his career Bob has taken on many jobs and done a great number of things including working at Cooper Tire, and as an IT project manager for Marathon Oil. Formally retired in 2012 Bob still works part time to help and assist.

While an alumni Bob has been ever active and hard working. He has been a member of building corp and has been a significant force in the planning of the 50th alumni weekend. Bob volunteered to head the 50th committee knowing that he could assemble an effective team that could complete goals set

like paying off the house and setting up the house for massive success. In the 70's Bob remembers the goals set to help pay off the house with the \$25 a year program to pay off the house at the 25th anniversary.

One of the large takeaways for Bob during the 50th was seeing all the brothers that he had not seen for so long. Seeing familiar faces and close friends was a wonderful experience and he hopes to see them all again at the next alumni weekend.

Bob and wife Debora currently live in Findlay Ohio and enjoy spending time with their family and are enjoying retirement.

Brandon Nothnagel

Brandon Nothnagel, '09, is a Trine University graduate with a BS in Mechanical Engineering. Brandon currently working as an engineering manager in Bristol Indiana after working for six years at Vestil Manufacturing. During his time as alumni he has been very active by taking on positions as the current alumni advisor and the ABT philanthropy chair.

Brother Nothnagel served on the planning committee for the 50th alumni weekend and was responsible for creating and drafting the many arts, logos and banners used throughout the weekend. Not only did Brother Nothnagel help in art creation but he was also responsible for a good portion of the donations and auction items brought in to raise funds for the Jimmy V foundation.

During his time as a brother, Brandon served in many capacities as the "E," house manager, philanthropy and entertainment chairs. While Brandon has done many things for the house Delta Chi has also done many great things for him. One such thing is the ability to have friends across generational gaps and being able to create lasting memories with brothers of all generations like the aforementioned Bob Edds and others that he would not have traditionally met.

Brandon, wife Gwendolyn and new son Lincoln currently live in Angola, IN and are planning to move to Elkhart to be closer to both family and work. It was a joy interviewing Brandon for the Red and Buff and I cannot wait to see what the future has in hold for such a great man.

Fall 2019 AM Report

Lake Wann

My name is Lake Wann and I'm an Electrical Engineering major at Trine University, expecting to graduate this upcoming spring in 2020. I am the associate member "A". I first got interested in Delta Chi after a friend brought me to a few events, and as I met more and more of the brothers, I became more interested in joining Delta Chi, and making friendships that'll last long after I graduate.

Josh McCallum

My name is Joshua (Josh) McCallum. I am a sophomore Mechanical Engineer at Trine and I am expected to graduate in the spring of 2022. I am the associate member "B". I joined Delta Chi because it is one of the most well-respected fraternities on campus, the brotherhood bond is one of the best around but also because of the volunteer work with the Jimmy V foundation and other foundations. Specifically, events they host for the community and campus like Puppies, Pies, and DChi's. Delta Chi to me is more than just a fraternity, it's a family for life.

Elijah Swingley

My name is Elijah (Eli) Swingley. I am studying Biomedical Engineering with an electrical concentration, and I plan on getting my Masters of Business administration at Trine. I am expected to graduate in spring of 2022. I am "C" of the Associate Member class. Delta Chi has a brotherly bond I have never felt anywhere before in my life, not even with my own brother. I hope this bond along with this fantastic group of guys can make me more extraverted and help me grow as a person of friendship, family, and faith.

Russell Keene

My name is Russell Keene and I'm a Junior Chemical Engineer at Trine University and I'm expected to graduate in spring 2021. I am the associate member "F". I decided to become a member of Delta Chi because of current classmates and brothers of the house. Ever since transferring to Trine, the brothers have welcomed me as if I had attended Trine since day one. Everyone is so welcoming and seems to truly care and making sure I am transferring to the new environment smoothly.

Trace Scoles

My name is Trace Scoles and I'm a senior Mechanical Engineer at Trine University. I am the associate member recruitment chair. I chose Delta Chi because of the characteristic of the current active brothers; as from what I have been told, the values and spirits held by the brothers matches my own, and I know that I will enjoy getting to know the brothers.
